

Positive Pay Transmissions

Bank Positive Pay is a universal transmission package designed for Banks to distribute to clients to increase Positive Pay participation.

Our award-winning software:

- Is easily installed by your clients at their location
- Creates and transmits your clients' files to you in your format, automatically and error-free
- Delivers the file to you by: FTP, email or directly to your web portal.

Compatible with your Bank Software

Positive Pay = Server + Client
Participation Software Software

Bank Positive Pay is compatible with all core processing packages.

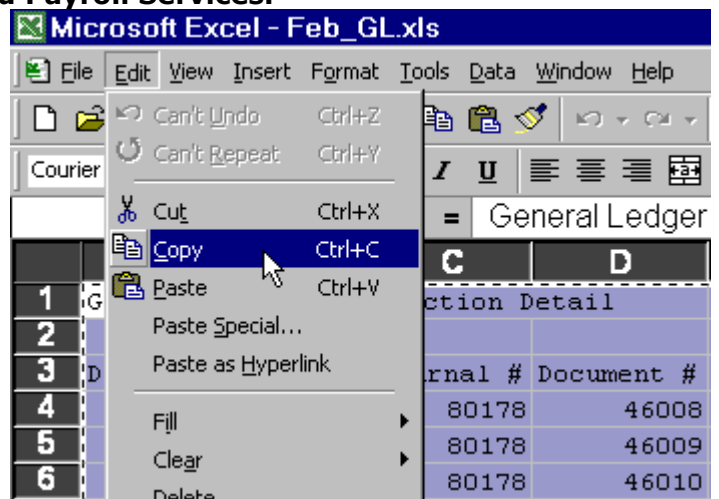

Compatible with: S1, Fiserv, Jack Henry, SunGard, Probanx, Open Solutions, Carreker, ITI, and other leading providers.

Compatible with all major Accounting Packages and Payroll Services.

Whether your Positive Pay customers are in a client-server environment, or are simply copying and pasting from Excel, we can interface with their data.

Our program is compatible with all major accounting packages, including SQL, Oracle, Local Area Network, Web and stand-alone based systems.

Our software can import from any Microsoft Excel, Microsoft Access, ASCII Text-Fixed Width or ASCII Text-Delimited file.

Bank Positive Pay's Private Label Service is:

- **branded** with your Bank's name and logo
- **preconfigured** with your Bank's format and transmission information
- delivered in a professionally packaged single **InstallShield™** file.

For questions on volume pricing, or to enroll in the Private Label program, please contact our Development Department at:
